Mounted or framed contemporary prints

the Art of
Kith &
Kids

These contemporary prints are by local artist and co-founder of Kith & Kids, Doreen Collins (1936-2010). She described her art as “trying to present movement and vitality on a flat surface. Using colour and the rhythm of the various lights and shades to emphasise shapes has been the underlying framework within any work I do as well as the flow of the overall design.” These prints are a wonderful way to brighten up any space.

All images are part of a large private collection of original pieces owned and donated by Paul and Maurice Collins OBE. If you have an image in mind that you can't see in this brochure, please just contact us and we will try our best to source it for you.

Helping people with autism gain skills for work

The Art of Kith & Kids is a project designed to help young people with autism learn practical skills and gain experience for work. We support them to print, mount, frame and sell images from a large private collection of posters and artwork kindly donated by Paul and Maurice Collins OBE. By giving them the confidence, experience and support they need, this is a rare opportunity for them to fulfil their potential.

Kith & Kids supports children and adults with learning disabilities or autism and their families. The charity offers many activities and services to help people overcome social isolation, develop skills and live more fulfilled lives.

All profits raised go toward funding Kith & Kids projects and activities.

If you would like to find out more about the work that we do then please visit www.kithandkids.org.uk.
